**SB1299 / HB1920 Advertisement for judicial or trust sales.**

**Category** Estates & Trusts

**Sponsors** Sen. Jack Johnson / Rep. Jimmy Matlock

**Description** Under present law, in any sale of land to foreclose a deed of trust, mortgage or other lien securing the payment of money or other thing of value or under judicial orders or process, advertisement of the sale must be made at least three different times in some newspaper published in the county where the sale is to be made. This bill decreases the number of times the advertisement must be published from three to one. Present law requires that the advertisement or notice: (1) Give the names of the plaintiff and defendant, or parties interested; (2) Describe the land in brief terms, including the street address if available; and (3) Mention the time and place of sale. This bill revises (2) to require that the advertisement or notice give a concise description of the land; such description means a reference to the deed book and page that contains the complete legal description of the property, and may also include a common description of the property, which may include, if available, the street name, number and map and parcel number. The description of the land must contain only the reference to the legal description of the property, and does not have to contain the full legal description contained in the deed book. Any error or defect in the common description of the land will not in any way void any sale of the land.

The commissioner must approve any application for the deduction of an intangible expense that is: (1) Paid, accrued, or incurred to an affiliate in a foreign nation that is a signatory to a comprehensive income tax treaty with the United States; or (2) Paid, accrued, or incurred to an affiliate when the affiliate, during the same taxable year, has paid, accrued or incurred such portion to an entity that is not an affiliate. Adds that intangible expenses would include interest expenses on such intangible expenses, as long as such interest expenses are allowable as deductions or costs in determining federal taxable income on a separate entity basis. Also revises who is subject to a negligence penalty when a taxpayer deducts intangible expenses arising from a transaction with an affiliate in determining Tennessee net earnings and fails to disclose such intangible expenses.
